

SS23
SPRING-SUMMER

TRAIL RUNNING • RUNNING • TRIATHLON

OUR MISSION WHEREVER YOU RACE, WE SUPPORT YOU.

We were born on the racecourse. We have followed our dreams and chased our passion across the planet, at the biggest and toughest endurance races this world has seen. Pushing boundaries is the fire that has driven us from Day 1, and continues to do so to this day. To see that same light reflected in the faces of all our athletes brings us the greatest joy.

Our mission is to bring you the support to experience the same indescribable emotions, and we are at your side to share them with you. Count on us to support, protect and stimulate your muscles with the technologies woven into our products. Count on us to support, encourage and cheer you on from the sidelines at races.

**DESIGNED TO FIT LIKE
A SECOND SKIN**

We are simply happy and proud to be part of your journey. Whether you are an experienced athlete or a rookie, an amateur or a podium contender, you are part of the Compressport family.

OUR BRAND VALUES

Boldness

Never fear innovation, never fear risk. Because if you never risk, you may never know what lies on the other side. It is never about how it looks, it is about how it performs under pressure, and how it helps YOU reach your goals. If Compressport products look different, it's because they DO different.

Generosity

We are all athletes. We understand that rush of endorphins, the power of pushing limits, the elation of the finish line. Encouraging you, supporting you, embracing the successes and the failures alongside you, and hopefully giving you a little something back, as a thank you for lifting us all up.

Passion for racing

Compressport is, unapologetically, a Performance Brand. We are athletes, we are fueled by the rush of adrenaline as we push through our own limits ; competition cannot be anything but an integral part of our DNA. This passion for racing is why we support so many teams and athletes across different sports.

Innovation

We like to think of ourselves as creators of technologies, striving alongside you to reach your goals. Innovation lights our way, inviting us to embrace the journey of discovery because the reward is all that much sweeter when it is reached through the power of our own strength.

Sincerity

Behind every single Compressport product is an athlete's story, a real-life request for higher performance. This collaboration leads to ultimate functionality, and above all authenticity. Because genuine performance cannot be camouflaged behind fancy words.

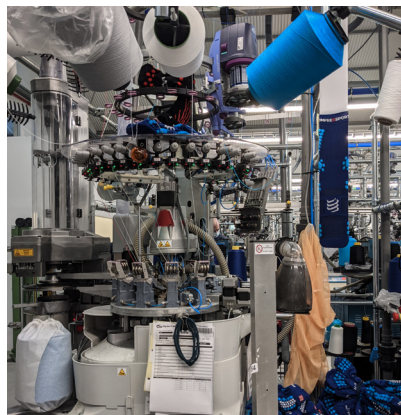

Respect

Respect for our competitors, our colleagues, our staff... ourselves. We commit to giving our best effort, we strive for personal excellence, we look out for our environment. The roads and trails and peaks that allow us to pursue our wildest ambitions deserve as much as our fellow men.

OUR KNOW HOW

Athletes

COMPRESSPORT® is in permanent interactions with athletes to create the products they need to practice their sports and improve their performance.

3D knitting & seamless technology

All COMPRESSPORT® compression and postural products are developed with the seamless technology to ensure both physiological benefits and optimal comfort.

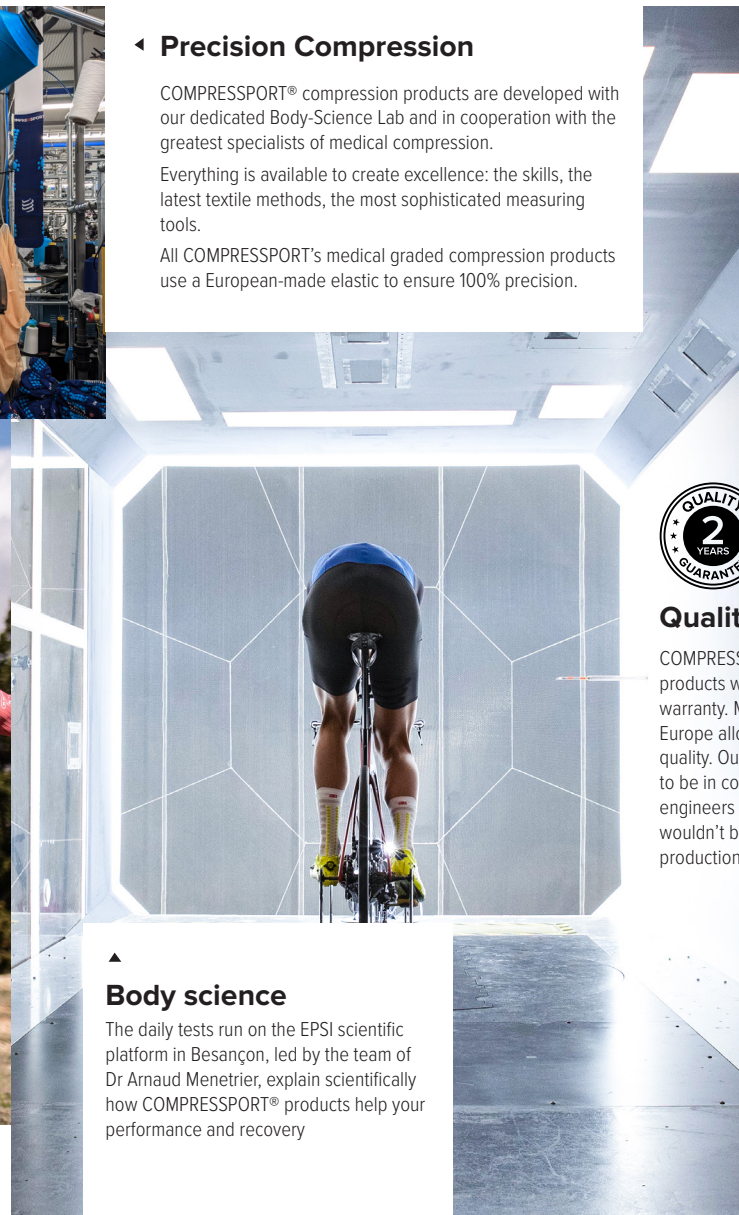

Precision Compression

COMPRESSPORT® compression products are developed with our dedicated Body-Science Lab and in cooperation with the greatest specialists of medical compression.

Everything is available to create excellence: the skills, the latest textile methods, the most sophisticated measuring tools.

All COMPRESSPORT's medical graded compression products use a European-made elastic to ensure 100% precision.

Quality

COMPRESSPORT® guarantees all its products with its 2-year international warranty. Manufacturing in Europe allows to maintain top level quality. Our need to be in contact with factories and engineers and to share our mission wouldn't be possible with production sites 20,000 km away.

Body science

The daily tests run on the EPSI scientific platform in Besançon, led by the team of Dr Arnaud Menetrier, explain scientifically how COMPRESSPORT® products help your performance and recovery

WHEREVER THEY RACE, WE SUPPORT THEM.
